GOHIGHLEVEL (GHL) SPECIALIST & AUTOMATION ENGINEER

Email:tomasaplryan@gmail.com WhatsApp: +63 977 626 5578 Portfolio:https://ryan-tomas.netlify.app/

PROFESSIONAL SUMMARY

GoHighLevel (GHL) Specialist with over 2 years of hands-on experience architecting end-to-end sales funnels, high-performing websites, and advanced multi-channel automations for businesses across the US and Canada. Combines a solid technical foundation (BS in Computer Science) with deep marketing infrastructure expertise to streamline operations, eliminate manual friction, and dramatically increase conversion rates for founders and CEOs.

CORE COMPETENCIES & TECHNICAL SKILLS

Platforms & Builders: GHL Expert, Funnel & Website Builder, CRM Infrastructure, Custom Domains, Subdomains & Webhooks.

Web Development: HTML, CSS, Custom UI Design, Responsive Layouts, Performance Optimization.

Automation & Integrations: Multi-channel Workflows (Email/SMS), Zapier, Typeform, Calendly, API Integrations.

Operations & Routing: DNS Setup, Pipeline Management, Lead Scoring, Lead-Routing Workflows.

PROFESSIONAL EXPERIENCE

GoHighLevel (GHL) Specialist & Automation Engineer | Remote (Supporting US & Canada Founders & CEOs)

2024 – Present

- Architected, built, and optimized 100+ comprehensive GoHighLevel infrastructures, custom subdomains, and webhook integrations for fast-growing North American brands.
- Partnered directly with executive leadership to turn business objectives into revenue-generating sales funnels, booking systems, and automated email/SMS nurturing sequences.
- Configured advanced multi-branch workflows and trigger-based CRM pipelines that drastically lowered customer acquisition costs and improved lead conversion efficiency.

FEATURED PROJECTS & CLIENT SOLUTIONS

Abelam Realty
Designed a fully responsive real estate website integrated seamlessly with a GHL booking and CRM ecosystem for streamlined client onboarding and consultations.

Homechef Academy
Architected a high-converting acquisition funnel capturing data via Typeform, scheduling via Calendly, and bridging data into GHL via Zapier.

Coastal VA Homes
Developed a single-page real estate landing page with automated scrolling paths and local consultation booking systems to capture high-intent leads.

Chris Concrete LLC
Built a professional contractor web presence highlighting past projects, complemented by automated quote-request workflows to accelerate response times.

EDUCATION

Bachelor of Science in Computer Science | Systems Technology Institute (STI)

Technical Foundation

Covering software principles, logic structures, database organization, and system engineering principles.
